

DID YOU KNOW?

Port of Savannah

- The Port of Savannah offers more all-water China-U.S. express services than any other U.S. East Coast port.
- Savannah provides access to more high-volume retail distribution centers than any other port in the U.S. Southeast.
- The Port of Savannah provides direct, convenient access to the largest U.S. consumer markets.
- Savannah ranks among the top U.S. ports in terminal efficiency.
- Trade between Savannah and China has grown 139% over the last five years.

- The Port of Savannah is the biggest portal for China Trade in the U.S. Mid & South Atlantic. In 2005, it handled 44% of total Mid & South Atlantic trade with China.
- China accounted for 41% of GPA's total trade in 2005.

- In 2005, Savannah was the number one destination for all of the top five import commodities going into the Mid & South Atlantic from China, as well as four of the top five export commodities going from the Mid & South Atlantic to China.
- With the addition of Container Berths 8 and 9, as well as \$1.025 billion in planned improvements, Savannah is the best-position port to provide the additional vessel and terminal capacity required for projected U.S. East Coast-China trade growth.
